

Malawi Factory Expansion Plan

- VALID Nutrition has transformed how starvation is treated in over 65 countries worldwide.

“[VALID’s model is] a pivotal innovation...that can achieve higher recovery rates and lower fatality rates than conventional treatments.” UK’s Department of International Development (DFID)

- From “cottage industry” type beginnings in 2005, today VALID has produced over 40 million sachets of ready-to-use therapeutic food – enough to treat 400,000 children with severe acute malnutrition (starvation).

“Our philosophy is not to import solutions into the developing world, but to add value to society and industry locally.”

Dr Steve Collins (MBE), Founder & Director

The VALID Nutrition Factory is a partnership between VALID Nutrition and Exagris Africa Ltd. We are now ready to move to a new location with a modern purpose designed building in Lilongwe. We are seeking additional grant / philanthropic funding in order to make this happen faster. If you think you can HELP, please contact us.
